WORK EXPERIENCE

Application Developer   Sept 2023 - Dec 2023
Pernod Ricard, Ontario, Canada

- Enhanced legacy **Java** web applications on the Quality Workstation platform using **JSPs** and **Servlets**, leading to improved system reliability and performance.
- Spearheaded the development of advanced features for the Quality Workstation platform with **Java** and **GWT**, elevating user experience and functionality.
- Streamlined **API** testing and web application deployment processes using **Postman**, **Eclipse**, and **Tomcat Server**, ensuring robust performance.
- Developed a web application focused on purchase order creation and submissions using **Sencha EXT JS** and **Node.js** frameworks, optimizing business workflows.
- Orchestrated **API** architecture and design for Mule Apps, employing **MuleSoft** and **AnyPoint Studio** for effective integration and deployment.
- Enhanced database script performance and scalability with **Toad** and **Oracle PL/SQL**, achieving higher data retrieval efficiency.

Full Stack Engineer   Apr 2018 - May 2022
Heineken, Lagos, Nigeria

- Developed and implemented **RESTful APIs** using **Node.js**, integrating seamlessly with **React.js** for dynamic content delivery.
- Led Agile project management initiatives, significantly boosting team collaboration and sprint delivery efficiency.
- Collaborated with designers using Figma to create intuitive **UI/UX** designs, integrating responsive principles into front-end components.
- Engineered 5 modern applications with **Python** and **JavaScript** frameworks.
- Streamlined **CI/CD** processes using **AWS** tools, cutting deployment times by 50%.
- Produced comprehensive documentation using **Confluence** and lifecycle reports for 10 projects, highlighting project management acumen and effective communication.

Web Developer   Nov 2016 - Mar 2017
Senal Plastic, Famagusta, Cyprus

- Developed over 10 custom websites using CMS tools like **WordPress**, **Webflow**, and **Squarespace**.
- Implemented **UI/UX** designs into functional web components with **React.js**, enhancing user engagement.
- Applied SEO techniques in web development, significantly boosting online visibility and search engine rankings.

EDUCATION

Master of Science Computer Science   Jan 2022 - Dec 2023
University of Windsor, Windsor, Ontario

Bachelor of Science in Information Technology   Oct 2013 - Jun 2017
Eastern Mediterranean University, Famagusta, Cyprus

VOLUNTEERING

Team Lead – Curriculum Development   July 2023 - Present
BlackBoysCode, Canada

- Led the development of educational content in **Mathematics** and **Python** for black children and pioneered the creation and implementation of AI (S.M.A.R.T) to monitor and enhance student learning outcomes.
